1.
2024 Overview

In 2024, BRU-Iscte's research activities were supported by nearly EUR 2 million (1 972 122,44 €) from competitive calls and other funding sources, an increase of 17% on 2023 (1 690 045,27 €). International sources were the largest single block (859 398,14 €), mainly from Horizon Europe, Erasmus+ and other European programmes, followed by FCT (676 283,26 €) and other national sources (436 441,04 €).

This funding supported FCT Scientific Employment Stimulus contracts as well as 14 FCT doctoral fellowships, two of them awarded in 2024, and Iscte merit fellowships for PhD candidates.

A group of our researchers was ranked among the 2% most influential scientists in their respective fields by Stanford University: Sandra Loureiro, Fernando Ferreira, Maria José Sousa, Arménio Rego, Ieva Meidutė-Kavaliauskienė and Sandro Mendonça. Sandra Loureiro was also named a Clarivate Highly Cited Researcher 2024.

This year, BRU-Iscte also submitted the application for the FCT R&D Units' Evaluation.

The Unit welcomed a new staff member to support the post-award management of new and ongoing projects. This has allowed the Unit to be more proactive and efficient in pursuing competitive research funding, especially from international sources.

2024 was a productive year, with an output of 314 peer-reviewed publications - 204 journal articles, 54 books, book chapters and edited books, and 56 papers in conference proceedings -, 139 communications in scientific events, 47 scientific events organised, 40 research projects, and 204 dissemination, knowledge transfer and outreach activities.

This year has a special relevance, because BRU-Iscte reached a remarkable milestone, having completed 30 years of activity.

3. News

The 2024 news stream is supported by three high-volume channels: scientific communications (139), events organised (47) and dissemination and outreach activities (204).

January 2024

On January 25, the SYNCLUSIVE project inaugurated the Portuguese Living Lab, hosting the international partners.

February 2024

BRU-Iscte took part for the first time in the 21st edition of the Iscte Business School Career Forum, on February 7 and 8.

February 2024

On February 27 and 28, the INITIATE project held its kick-off meeting in Zagreb (Croatia).

March 2024

In March, the SMITour project held its kick-off meeting in Prato (Italy).

March 2024

In March, BRU-Iscte hosted the international partners of the AgroPro Erasmus+ project

April 2024

On April 8, BRU-Iscte welcomed new staff member Mafalda Casais, for the position of Research Funding Manager

April 2024

On April 8, BRU-Iscte was present at the IBS Exchange Week 2024 at Iscte.

May 2024

The RESETTING project final conference was held on May 23 in Tarragona (Spain).

June 2024

On June 18, BRU-Iscte hosted the second public workshop of the Interreg Euro-MED project SMITour.

June 2024

On June 20, BRU-Iscte took part in the Iscte Doctoral Programmes Open Day

June 2024

In the third week of June, BRU-Iscte co-hosted the NEEM project workshop at Iscte.

June 2024

In June, Sílvia Silva became a member of the Executive Committee of the European Academy of Occupational Health Psychology (EAOHP), as Head of the Research Forum.

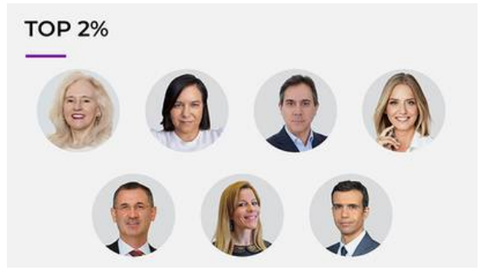

June 2024

On June 28, the International Scientific Advisory Board visited BRU-Iscte.

September 2024

On September 1, BRU-Iscte welcomed two new Junior Researchers: Irene Ciccarino and Sofia Oliveira.

September 2024

On September 16, Stanford University released its Top 2% Scientists list, which featured several BRU-Iscte researchers.

September2024

On September 27, BRU-Iscte was present at the European Researchers' Night 2024.

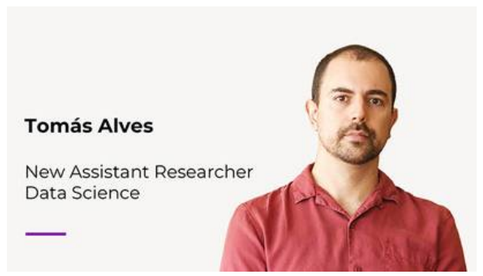

October 2024

On October 4, the ImAFUSA project hosted a VR Open Day.

October 2024

On October 7-10, the TRANSFORM project hosted its kick-off meeting and a collaborative workshop

October 2024

On October 14, BRU-Iscte welcomed Tomás Alves as a new Assistant Researcher in Data Science.

October 2024

The INITIATE project held its General Assembly at Iscte, between October 23 and 25.

November 2024

In November, BRU-Iscte launched a new video showcasing the facilities and resources available to its PhD students and researchers.

December 2024

On December 10, BRU-Iscte marked its 30th anniversary (1994-2024) with a special celebration.

4.
Research Impact & SGDs

4.1.
SDG alignment in 2024

Through its Sustainability Policy, Iscte encourages researchers to link their scientific output to the Sustainable Development Goals (SDGs) of the 2030 Agenda when registering it in Ciência Iscte, each entry is connected to a maximum of three SDGs. BRU-Iscte uses this information to map the Unit's research by SDG.

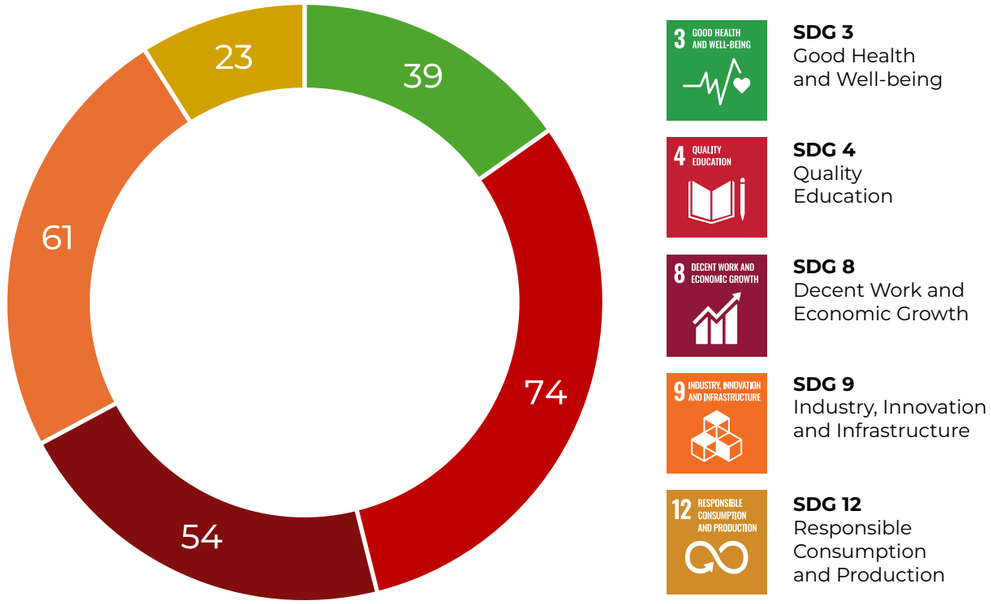

In the publications (258 - journal articles, books, book chapters and edited books), the three SDGs with the highest count are SDG 8: Decent Work and Economic Growth (19), SDG 9: Industry, Innovation and Infrastructure (13), SDG 12: Responsible Consumption and Production (11). In the scientific communications (139), the highest counts are SDG 9: Industry, Innovation and Infrastructure (11), SDG 8: Decent Work and Economic Growth (7), SDG 13: Climate Action (7). In the PhD theses concluded in 2024 (72), the highest counts are SDG 4: Quality Education (56), SDG 9: Industry, Innovation and Infrastructure (28), SDG 3: Good Health and Well-being (21). In the research projects (40), the highest counts are SDG 8: Decent Work and Economic Growth (10), SDG 4: Quality Education (9), SDG 9: Industry, Innovation and Infrastructure (9).

Overall, the five most frequent SDGs are SDG 3 (39), SDG 4 (79), SDG 8 (54), SDG 9 (61), SDG 12 (23).

SDG	Articles	Books	Communications	PhD Theses	Projects	Total
SDG 1: No Poverty	2	1	0	0	0	**3**
SDG 2: Zero Hunger	0	0	0	0	2	**2**
SDG 3: Good Health and Well-being	6	0	4	21	8	**39**
SDG 4: Quality Education	2	7	5	56	9	**79**

SDG	Articles	Books	Communications	PhD Theses	Projects	Total
SDG 5: Gender Equality	1	1	0	0	3	**5**
SDG 6: Clean Water and Sanitation	0	0	0	0	1	**1**
SDG 7: Affordable and Clean Energy	2	0	6	0	5	**13**
SDG 8: Decent Work and Economic Growth	13	6	7	18	10	**54**
SDG 9: Industry, Innovation and Infrastructure	8	5	11	28	9	**61**
SDG 10: Reduced Inequalities	1	4	6	0	7	**18**
SDG 11: Sustainable Cities and Communities	4	3	0	4	7	**18**
SDG 12: Responsible Consumption and Production	8	3	3	7	2	**23**
SDG 13: Climate Action	2	1	7	1	7	**18**
SDG 14: Life Below Water	0	0	0	0	0	**0**
SDG 15: Life on Land	0	0	0	0	0	**0**
SDG 16: Peace, Justice and Strong Institutions	4	1	0	0	1	**6**
SDG 17: Partnerships for the Goals	0	0	0	2	4	**6**

SDG Count (Top 5 total)

4.2. Policy impact (Overton)

Overton lists 69 policy documents published in 2024 that cite BRU-Iscte research, and 120 records for 2023-2024. Of the 2024 documents, 27 were published by international organisations and development banks (EU, OECD, World Bank, UN, ILO, IMF), 8 by central banks, 12 by national and regional governments and parliaments, and 22 by policy research institutes and think tanks. Details are given in section 10.5.

4.3. Rankings

Six BRU-Iscte researchers were included in Stanford University's list of the top 2% most influential scientists: Sandra Loureiro, Fernando Ferreira, Maria José Sousa, Arménio Rego, Ieva Meidutė-Kavaliauskienė and Sandro Mendonça.

5.
Team

5.1.
Executive Summary

By the end of 2024, the BRU-Iscte research team comprised 179 members spread across 7 research groups: 100 integrated members, 50 associated members and 29 research assistants (mainly PhD candidates). The Unit operated with a support staff of 7.

The team combines strong editorial engagement and international networking: 391 editorial-position records held by 93 researchers in 304 journals, including Editorial Board memberships, Associate Editor roles and three Editor-in-Chief or Co-Editor-in-Chief positions; and 23 research networks and scientific cooperation activities (20 international).

5.4. Groups

5.4.1. Executive Summary

BRU-Iscte has seven research groups spanning several areas of research and knowledge.

The Accounting group focuses on sustainability reporting and public sector accounting. Its research covers the development of reporting frameworks, the measurement of social and environmental impact, the digital transformation of accounting, and fiscal transparency and participatory budgeting in the public sector. The group works closely with policymakers, professional bodies and industry. Its members are active in international networks such as the European Accounting Association and the Grudis Accounting Research Network.

The Data Analytics group develops quantitative and computational methods and applies them across business and society. Its work includes econometrics, risk assessment in big tech companies, and energy demand and price forecasting. The group leads BRU-Iscte's contribution to international projects such as INITIATE, which supports research and innovation in higher education institutions in widening countries.

The Economics group studies digital connectivity and technology standards, and the ecological and digital transitions. It uses big data, text-as-data and causal machine-learning methods and also works on the water-energy-food-ecosystems nexus. The group has a strong record of policy impact: its work is regularly cited by central banks, international organisations and European institutions. It contributes to the SocioDigital Lab for Public Policy, particularly in regenerative territories and carbon neutrality.

The Finance group's research covers environmental, social and governance (ESG) issues and socially responsible investment. It also works on corporate governance and board diversity, and on real options and mathematical finance, with applications to renewable-energy investment and volatility derivatives. Further lines of work are bank balance-sheet management and credit risk. The group publishes regularly in leading finance and operations research journals and makes intensive use of international financial databases.

Management is one of BRU-Iscte's largest and most productive groups. Its research spans sustainability and corporate social responsibility, health management, digital skills, leadership, strategy and internationalisation, mobility, urban quality of life, not-for-profit organisations and humanitarian action. Members are involved in a wide range of European projects, from drone-based urban air mobility to digital health.

The Marketing group develops new conceptual frameworks and measurement tools for consumer-brand relationships, human-AI interaction, well-being and sustainability. It makes extensive use of virtual and augmented reality and other immersive technologies. Its members publish widely in leading international journals and are increasingly successful in competitive European funding, including Horizon Europe and Marie Skłodowska-Curie actions.

Organisational Behaviour & Human Resources is the largest group in BRU-Iscte. Its research addresses occupational health and attendance behaviour, including presenteeism and burnout, as well as mistreatment at work, teams and collaborative work, and the future of work and its challenges for human resource management. The group combines a strong publication record with close links to organisations.

5.4.2. Facts & Numbers

Outputs are counted once per group when at least one author belongs to the group; outputs with authors in several groups count in each.

Research group	Members	Journal articles	ABS 3/4/4*	Q1 (JCR or SJR)	Communications	Policy citations
Accounting	14	11	0	3	38	2
Data Analytics	22	20	0	13	18	4

5.5.
Visiting Researchers

In 2024, BRU-Iscte received 14 visiting researchers and scholars from 14 institutions in 7 countries: 5 visiting scholars for scientific cooperation with BRU-Iscte researchers (including 1 Fulbright Scholar), 2 visiting PhD students, and 7 guest speakers of the BRU-Iscte Research Seminar Series. Visitors came from Spain (4), United Kingdom (3), United States (3), Russia (1), Colombia (1), Italy (1), Portugal (1).

Visitor	Affiliation	Country	Dates	Type of visit
Alvaro Saavedra	Universida Navarra	Spain	2024-01-18 to 2024-04-21	Visiting PhD student
Dolores Vázquez	University of Extremadura	Spain	2024-02-01 to 2024-06-30	Scientific cooperation
Monika Tarsalewska	University of Exeter	United Kingdom	2024-03-04	Research Seminar speaker
Andrew Hafenbrack	Foster School of Business, University of Washington in Seattle	United States	2024-05-01 to 2024-07-31	Fulbright Scholar; seminar and workshop
Amedeo Pugliese	University Padova & Pompeu Fabra	Italy	2024-05-03	Research Seminar speaker
Xiang (Robert) Li	Temple University	United States	2024-05-07	Research Seminar speaker
Maria Tomprou	Tepper School of Business	United States	2024-06-03	Research Seminar speaker
Raquel Sánchez	University of Granada	Spain	2024-06-15 to 2024-09-15	Scientific cooperation
Mariella Miraglia	University of Liverpool Management School	United Kingdom	2024-06-17	Research Seminar speaker
Vanessa Refojo	Universidad Autónoma de Madrid	Spain	2024-09-01 to 2024-11-30	Visiting PhD student
Ian Thomson	University of Dundee	United Kingdom	2024-10-03	Research Seminar speaker
Svetlana Ratner	RUDN University	Russia	2024-10-07 to 2024-11-03	Scientific cooperation
Monica Gordillo	Universidad Icesi	Colombia	2024-11-01 to 2024-12-30	Scientific cooperation
Pedro de Freitas	Blavatnik School of Government, University of Oxford & Nova SBE Economics of Education Knowledge Center	Portugal	2024-11-06	Research Seminar speaker

6.
Doctoral Programmes & Advanced Training

6.1.
Executive Summary

BRU-Iscte coordinates three PhD programmes - Management, Finance, and Economics - and the Doctor of Business Administration (DBA) programme, run in collaboration with Chinese universities.

In 2024, 72 doctoral theses were concluded under the supervision of BRU-Iscte members: 57 in the DBA programme, 8 in the PhD in Management, 3 in the PhD in Finance and 2 in the PhD in Tourism Management (association). Members also supervised 2 PhD theses at other universities (Instituto Superior Técnico and Universidade de Évora).

BRU-Iscte members also supervised 461 MSc dissertations and 85 MSc final projects defended in 2024. 247 dissertations were written in English and 208 in Portuguese.

6.3.
Grants

In 2024, FCT funded 14 doctoral grants (12 of which already ongoing), for a total of 201 684,34 €, including two new grants (2024.01091.BD and 2024.02311.BDANA). Iscte merit grants for PhD candidates amounted to 83 212,42 €, including 4 new grants. Funded research projects accounted for 12 new grants in 2024, including 2 post-doctoral and 3 PhD level grants.

ANNUAL RESEARCH REPORT 2024 BRU-ISCTE

7. Funding

7.1. Executive Summary

BRU-Iscte's funding in 2024 totalled 1 972 122,44 €, up from 1 690 045,27 € in 2023. International sources accounted for 859 398,14 € (44%), with Horizon Europe the largest programme (544 095,51 €), followed by other European programmes (236 238,58 €) and Erasmus+ (61 309,70 €). FCT contributed 676 283,26 € (34%), of which 308 650,00 € was R&D Unit pluriannual funding and 201 684,34 € doctoral fellowships. Other national sources added 436 441,04 €, mostly Iscte funds (338 259,51 €).

The data shows diversified support that sustains research execution, advanced training and international project participation.

7.2. Submitted & Approved Applications

In 2024, BRU-Iscte researchers submitted 45 applications for competitive funding: 10 national and 35 international (18 to Horizon Europe and 9 to Erasmus+). By the time of reporting, 4 had been approved (2 national and 2 international), 5 were on reserve lists, 20 were not funded and 16 were awaiting a decision. The success rate among decided applications was 8% in international calls and 50% in national calls.

The approved applications were XiA - Xpanding Innovative Alliance (Erasmus+ Innovation Alliances, coordinated by Henrique Martins) and CANDLE - National CAncer data Node DeveLopErs (Horizon Europe, Henrique Martins), together with two FCT Advanced Computing projects (in-kind computing resources, Jorge Sinval). HERE - Higher Education for Resilient Economy (NAWA, Renato Pereira), submitted in 2023, started in September 2024.

The 2024 structure indicates 3 approved national applications and 2 approved international applications.

Status	National	International	Total
Approved	2	2	4
Reserve list	0	5	5
Not funded	2	18	20
Awaiting decision	6	10	16
Total submitted	**10**	**35**	**45**

7.3. Funding Sources

Breakdown of BRU-Iscte's funding sources in 2024

Source	Amount
Fundação para a Ciência e a Tecnologia, I.P. - FCT	**676 283,26 €**
R&D Unit pluriannual funding	308 650,00 €
FCT projects	74 194,44 €
Funding for contracts of researchers with PhD	91 754,48 €
Funding for PhD, postdoc or other fellowships	201 684,34 €
Other national sources	**436 441,04 €**
Companies, industry and other private sources based in Portugal	43 352,58 €
Funding received from participant or management institutions (Iscte funds)	338 259,51 €
Other public funding	5 283,33 €
Public funding with EU funds (PT2020/PRR)	49 545,62 €
International sources	**859 398,14 €**
Horizon Europe	544 095,51 €
Erasmus+	61 309,70 €
Other European programmes	236 238,58 €
Other international funding sources	17 754,35 €
TOTAL	**1 972 122,44 €**

International funding by project, 2024

Project	Programme	Funding 2024
REFMAP	Horizon Europe	105 521,46 €
SmartVitiNet	I3 Instrument (ERDF)	99 538,53 €
EMPOWER	Horizon Europe	85 341,25 €
ImAFUSA	Horizon Europe	80 975,00 €
AMR-EDUCare	Horizon Europe	79 687,97 €
TOURSUS-EU	Horizon Europe	78 389,28 €
INITIATE	Horizon Europe	77 673,06 €
Coop4Int	Migration Partnership Facility (EU)	60 004,84 €
SYNCLUSIVE	Horizon Europe	36 507,49 €
SMITour	Interreg Euro-MED	35 555,56 €
AgroPro	Erasmus+	25 795,00 €
kNOwHATE	CERV	22 031,83 €
NEEM	Erasmus+	19 787,20 €
WISE-AI	Erasmus+	14 100,00 €
RESETTING	COSME	9 915,32 €
TRANSFORM	CERV	9 192,50 €
UAMschool4cities	Erasmus+	1 627,50 €
HERE	Other international funding	17 754,35 €

8.
Scientific Outputs & Projects

8.1.
Executive Summary

In 2024, BRU-Iscte researchers published 204 journal articles in 175 journals, 8 authored books, 10 edited books, 36 book chapters, 56 papers in conference proceedings and 3 scientific reports. Communications were predominantly international: 115 of 139 were in English, 21 in Portuguese and 3 in Spanish.

8.3.
Top Publications

BRU-Iscte researchers published 20 articles in journals ranked ABS 3, 4 in journals ranked ABS 4 and 1 in a journal ranked ABS 4*. In addition, 68 articles were published in WoS Q1 journals and 101 in SCImago Journal & Country Rank Q1 journals. We highlight the top publications, ranked ABS 4* and 4:

Drawing on the dark triad to teach effective leadership is dangerous, irresponsible, and bad theory

Academy of Management Learning and Education
Author: Arménio Rego (ABS 4*)

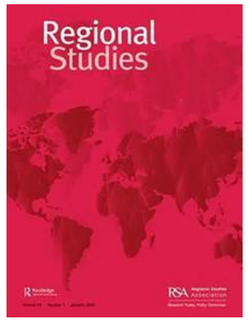

Finite maturity caps and floors on continuous flows under the constant elasticity of variance process

European Journal of Operational Research
Authors: José Carlos Dias, João Pedro Nunes, Fernando Silva (ABS 4)

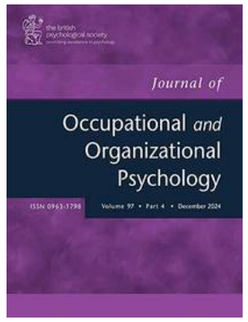

Paradoxes of authenticity in liminal consumption: The case of Casablanca's Rick's Café

Journal of Travel Research
Author: Arménio Rego (ABS 4)

Places as brands: Charting the value of place-based intangibles

Regional Studies
Author: Sandro Mendonça (ABS 4)

Your Coworkers Can Make You Sick: An Investigation of Coworker Undermining and Employee Health

Journal of Occupational and Organizational Psychology
Author: Sandra Costa, Maria João Velez (ABS 4)

Articles in ABS 3 journals:

Title	Journal	BRU-Iscte author(s)
Predicting tail risks and the evolution of temperatures	Energy Economics	Luís Filipe Martins
From extra to extraordinary: An academic and practical exploration of Extraordinary (E) Pro Environmental Behavior (PEB) in the hotel industry	International Journal of Hospitality Management	Álvaro Dias
A multi-objective competency-based decision support system for the assignment of internal auditors to multiple projects	Annals of Operations Research	Fernando Ferreira
Club convergence in the eurozone: A look at inequality dynamics	Economics Letters	Sofia Vale
Boosting heritage recommendations through awe and augmented reality	International Journal of Contemporary Hospitality Management	Jorge Nascimento, Sandra Loureiro
Understanding the desire for green consumption: Norms, emotions, and attitudes	Journal of Business Research	Jorge Nascimento, Sandra Loureiro
Return predictability, dividend growth, and the persistence of the price-dividend ratio	International Journal of Forecasting	João Madeira
How leaders 'Strength of Heart' and 'Strength of Will' enhance team performance	Human Performance	Arménio Rego
The Euro area government spending multiplier in demand- and supply-driven recessions	Oxford Bulletin of Economics and Statistics	Matteo Fragetta, Emanuel Gasteiger
Fostering hybrid team performance through inclusive leadership strategies	Organizational Dynamics	Patrícia Costa
Unraveling the dynamics: Exploring the nexus between abusive supervision, counterproductive work behaviors and the moderating influence of mindfulness	Journal of Managerial Psychology	Ana Junça Silva
Using machine learning to unveil the predictors of intergenerational mobility	Review of Income and Wealth	Luís Clemente Casinhas, Alexandra Ferreira Lopes, Luís Filipe Martins
Analyzing the causal dynamics of circular-economy drivers in SMES using interpretive structural modeling	Energy Economics	Fernando Ferreira
How can more be done with less?': Investigating frugal innovation determinants using design thinking and interpretive structural modeling	IEEE Transactions on Engineering Management	Margarida Santos, Fernando Ferreira
Novel analytic representations for caps, floors, collars, and exchange options on continuous flows, arbitrage-free relations, and optimal investments	Journal of Futures Markets	José Carlos Dias, João Pedro Nunes, Fernando Silva
Structuring and analyzing initiatives that facilitate organizational transformation processes: A sociotechnical approach	Technological Forecasting and Social Change	Fernando Ferreira
Folie à deux? How Mavericks shape the relationship between the dark triad and negative deviant behaviours through malevolent creativity	Personality and Individual Differences	Ana Junça Silva
What works for whom in which circumstances in successful HRM implementation? A realist synthesis	Journal of Business Research	Atieh Mirfakhar
Determinants of approach behavior for ChatGPT and their configurational influence in the hospitality and tourism sector: A cumulative prospect theory	International Journal of Contemporary Hospitality Management	Sandra Loureiro
An experimental analysis of contagion in financial markets	Journal of Economic Dynamics and Control	Helena Veiga

8.4. Awards

BRU-Iscte researchers received 18 scientific awards in 2024, 16 international and 2 national.

Furthermore, in 2024, 61 BRU-Iscte researchers received the 2024 Iscte Research Awards for publications and projects published or approved in the previous year (2023). Under BRU-Iscte rules, 89 research works were given a monetary prize: 80 scientific articles, 1 book and 8 projects.

Researcher	Award	Institution
Álvaro de Borba Cruz Lopes Dias	Extraordinary Doctorate Awards - Universidad de Sevilla	Universidad de Sevilla
Ana Isabel Dias Lopes	Best paper Award at the VIII International Forum on Management - Escola Superior de Hotelaria e Turismo do Estoril	Escola Superior de Hotelaria e Turismo do Estoril
Ana Isabel Dias Lopes	Outstanding Paper Award Professor Lúcia Lima Rodrigues at the XXIII Grudis Conference for the paper "IFRS 16 implementation effects on financial statements and key financial ratios" - Grudis Accounting Research Network	Grudis Accounting Research Network
Bruno Tadeu Fernandes Abrantes	Emergent Scholar Award at the 24th International Conference on Knowledge, Culture, and Change in Organizations - Common Ground Research Network	Common Ground Research Network
Carlos Manuel da Silva Pacheco Pinheiro	Recognized Reviewer - International Review of Financial Analysis	Elsevier
Fernando Alberto Freitas Ferreira	Certificate of Recognition - Senate of the University of Vlorë, Albania	Senate of the University of Vlorë
Fernando Alberto Freitas Ferreira	Wiley Certificate of Top-Cited Article in 2022-2023	Wiley
Inna Choban de Sousa Paiva	Accounting and Management Review (AMR) Best Paper Award, 2024: "Liberato, M., Paiva, I. and Serrasqueiro, R. (2024). Implementation of Management Accounting in the Portuguese Public Administration and Perception of its purpose" - scientific prize awarded by the Order of Certified Accountants	Order of Certified Accountants
Maria José Sousa	Winning paper "Artificial Intelligence in Agriculture: Revolutionizing Methods and Practices in Portugal" of the GEE Call for Papers on "Artificial Intelligence in Portugal: Innovations, Challenges and Economic Impacts"	Galeria de Educação Especial
Patrícia Costa	Best paper award - Academy of Management Conference (2024)	Academy of Management
Renato Pereira	Top 10 most-cited papers published in European Management Review - European Academy of Management (EURAM)	European Academy of Management (EURAM)
Sandra Cristina Pereira Costa Camacho	Outstanding Reviewer Award Team Performance Management - Academy of Management	Academy of Management
Sandra Cristina Pereira Costa Camacho	Academy of Management OB division Best Reviewer	Academy of Management
Sandra Maria Correia Loureiro	Highly Cited Researcher 2024 Clarivate	Clarivate
Sandra Maria Correia Loureiro	Best Track Chair Award at the 2024 Global Fashion Management Conference for the conjoint symposium GAMMA-BRU-Iscte	Global Fashion Management Conference
Sandra Maria Correia Loureiro	Outstanding paper award 2024 for the paper "Internet of things and consumer engagement on retail: state-of-the-art and future directions" - EuroMed Journal of Business	EuroMed Journal of Business
Sandra Maria Correia Loureiro	Finalist of SHETH FOUNDATION/Journal of Marketing Award - American Marketing Association	American Marketing Association
Sara López Corlett	Best Doctoral Dissertation in Gender Equality (Accésit) - Comunidad Universitaria de la Universidad de Sevilla (https://igualdad.us.es/wpblog/actuaciones/premios-tfg-tfm-td/)	Comunidad Universitaria de la Universidad de Sevilla

8.5. Projects

In 2024, BRU-Iscte researchers were involved in 40 research projects, 17 of them funded by European programmes (7 Horizon Europe, 4 Erasmus+ and 6 other European programmes). The full list is in section 8.5.3.

8.5.1. New Projects (started in 2024)

INITIATE - Supporting European R&I Through stakeholder collaboration and institutional reform (2024-2027)

Programme: Horizon Europe. Period: 2024-02-01 to 2027-07-31. BRU-Iscte team: Paula Vicente, Ana Catarina Nunes, Elizabeth Reis, Mafalda Ponte. Funding in 2024: 77 673,06 €.

INITIATE is a project that aims to empower higher education institutions to develop R&I through institution transformation. INITIATE, in its widening dimension, seeks to raise excellence in science and knowledge valorisation of Europe's universities through cooperation and knowledge circulation. Through stakeholder inclusion and co-design approach, INITIATE will design an approach for institution transformation that will reflect on the current needs and resources of the institution, external elements such as policy barriers, good practices from other initiatives and identification of possible collaboration areas with other institutions including local ecosystems.

In 2024: the project held its kick-off meeting in Zagreb (Croatia) on February 27 and 28, and its General Assembly at Iscte between October 23 and 25.

SMITour - SMart Industrial Tourism in the Mediterranean (2024-2026)

Programme: Interreg Euro-MED. Period: 2024-01-01 to 2026-03-31. BRU-Iscte team: Álvaro Dias, Maria José Sousa, Jorge Nascimento. Funding in 2024: 35 555,56 €.

The project aims to exploit transnational cooperation to explore the social and economic potential of Smart Industrial Tourism (SMIT), as a sustainable economic activity that can benefit tourism actors, SMEs, the industry, CCIs, R&D centers, HEIs and technology providers, and the local communities. The project will create transnational working groups involving 4helix stakeholders to explore industrial tourism and related advanced technologies applications. It will eventually define a common strategy and Action Plan for the development of SMIT in the Med regions.

In 2024: the project held its kick-off meeting in Prato (Italy) in March, and BRU-Iscte hosted its second public workshop on June 18.

WISE-AI - Fostering Young Women's Employability by Promoting Sustainable Development Goals through Artificial Intelligence (2024-2026)

Programme: Erasmus+. Period: 2024-04-01 to 2026-03-31. BRU-Iscte team: Aristides I. Ferreira, Catarina Correia Leal. Funding in 2024: 14 100,00 €.

The WISE-AI project aims to address the low participation of women in AI sciences and support the implementation of the Sustainable Development Goals (SDGs). Despite the increasing importance of AI in various fields, women remain underrepresented in this sector. By combining training and educational play, the project seeks to empower young women in entrepreneurship and AI skills, bridging the gender gap and promoting inclusion and equality.

The WISE-AI project is an intervention aimed at increasing young women's employment opportunities in Artificial Intelligence (AI) and aligning with the SDGs. The project aims to increase young women's participation in AI by providing technical and entrepreneurial training and promoting sustainability. It also discusses the main findings and issues to foster a more diverse and inclusive AI workforce.

In 2024: On 18 June the consortium partners met up in Nicosia, Cyprus to kick-start the work of WISE-AI. Later, in December, the project launched an EU report which included an overview of basic AI skills and gaps identification and recommendations.

TRANSFORM - The Future of Human Workforce: Embracing Change, Challenges, and Opportunities (2024-2026)

Programme: CERV. Period: 2024-09-01 to 2026-08-31. BRU-Iscte team: Sílvia Agostinho da Silva, Maria João Velez. Funding in 2024: 9 192,50 €.

The project proposal focuses on the future development of the human workforce, with the aim of exploring critical aspects related to its future development. The technological advances have significantly reshaped industries and lead to the emergence of novel job roles and unimagined employment opportunities that were just until recently unimaginable. The anticipated changes in the labour force will therefore require a corresponding change in the skills, competencies, and capacities of people actively participating in the labour market.

In 2024: the project hosted its kick-off meeting and a collaborative workshop on June 5-7.

HERE - Higher Education for Resilient Economy (2024-2026)

Programme: NAWA Strategic Partnerships (National Agency for Academic Exchange, Poland). Period: 2024-09-01 to 2026-08-31. Led by the University of Poznań (Poland), with Renato Pereira as BRU-Iscte principal investigator. Iscte budget: 53 263,04 €; funding in 2024: 17 754,35 €.

The objective of this project is to develop durable solutions in the area of scientific, implementation and teaching process cooperation, pursued within the framework of international academic partnerships. The results of the project should provide a foundation for the development of a long-lasting cooperation of entities forming a partnership to produce meaningful results in the areas of research, mobility, and teaching.

In 2024: the project had its online kick-off meeting on 4 September.

ACSS - Satisfaction Survey (2024-2025)

Contract with the Central Administration of the Health System (ACSS). Period: 2024-05-14 to 2025-12-31. Coordinator: Sofia Portela. Iscte budget: 9 850,00 €.

Approved projects in 2024 (starting in 2025)

XiA - Xpanding Innovative Alliance (Erasmus+ Innovation Alliances, 2025-2028), coordinated by Henrique Martins (CVTT-Iscte).

CANDLE - National CAncer data Node DeveLopErs (Horizon Europe), with Henrique Martins as BRU-Iscte principal investigator.

Two FCT Advanced Computing projects on Bayesian psychometrics and Bayesian structural equation modelling (in-kind computing resources, 2025-2026), Jorge Sinval.

8.5.2. Concluded Projects (2024)

UAMschool4cities - Urban Air Mobility School for Cities (2022-2024)

Programme: Erasmus+. Period: 2022-02-01 to 2024-01-31. BRU-Iscte team: Sofia Kalakou, Nelson Jorge Campos Ramalho. Funding in 2024: 1 627,50 €.

Over the past few years, civil applications of Drones or UAVs (Unmanned Aerial Vehicles) technologies have been transitioning from purely industrial applications to commercial ones and their impact on transport operations can no longer be ignored. The concept of Urban Air Mobility (UAM) has been coined to describe a new type of air traffic at very low altitude. Despite the readiness of the technology, the multidisciplinary employee teams of Local Authorities are not prepared for its integration in transport plans.

UAMschool4cities was an Erasmus+ project that aimed to prepare cities for the deployment of Urban Air Mobility (UAM) by training their staff. A consortium of seven organisations from Portugal, Germany, Greece, Cyprus and Slovenia developed and launched an online training programme, including a MOOC, on the skills and knowledge needed to implement innovative aerial services in cities and regions. The project's outcomes were shared at multiplier events in Ljubljana, Lisbon (Iscte, 25 January 2024) and Lyon (29 January 2024), which brought together professionals in urban planning and mobility, students and other stakeholders. The project concluded with its fourth and final Transnational Project Meeting in Lyon on 29-30 January 2024, where partners reviewed results and lessons learned and planned for sustainability and further dissemination.

RESETTING - Relaunching European smart and SustainablE Tourism models Through digitalization and INnovative technoloGies (2022-2024)

Programme: COSME. Period: 2022-01-02 to 2024-06-30. BRU-Iscte team: Daniela Langaro, Sandra Maria Correia Loureiro. Funding in 2024: 9 915,32 €.

The global COVID-19 crisis triggered major changes across societies around the world disrupting the way we live and conduct business. Across Europe, the measures and restrictions enforced due to the pandemic have led to sudden changes in many paradigms paving the way for new business models and market exchanges. This dramatic disruption has accelerated some socio-economic trends, which were visible before the COVID-19 crisis, such as the adoption of sophisticated technology and data solutions to facilitate human-centered, people-smart, and sustainable operation models; the incorporation of sustainability and climate mitigation as non-negotiable principles of operating and doing businesses and last but not least, relying on smart data evidence-based solutions to guide decision making for optimal commercial and sustainability performance.

RESETTING (Relaunching European smart and SustainablE Tourism models Through digitalization and INnovative technoloGies) was funded by the EU's COSME Programme and coordinated by Eurecat. The project supported European tourism SMEs in moving towards more resilient, circular and sustainable business models through digital and innovative solutions. It ran three open calls offering financial support to tourism SMEs. Partners developed a suite of smart tourism tools, including the RESETLYTICS analytics and forecasting platform, crowding-monitoring and visualisation tools, a sentiment analysis tool, a sustainable B2B marketplace and a sustainability self-diagnostic for SMEs. The project also produced a podcast and an online community. Its results were presented at the RESETTING Final Conference, held on 23 May 2024 at the Tarragona Provincial Council Auditorium in Spain. The programme included an SME roundtable, live demonstrations of the project's tools, among them the Smart Tourism Tools (Iscte) and Resetlytics (BRU-Iscte), and a legacy panel with EISMEA and other COSME tourism projects.

KNOWING ONLINE HATE SPEECH
KNOWLEDGE + AWARENESS = TACKLING HATE

kNOwHATE - kNOwing online HATE speech: knowledge + awareness = TacklingHate (2022-2024)

Programme: CERV. Period: 2022-03-01 to 2024-08-31. BRU-Iscte team: Catarina Marques. Funding in 2024: 22 031,83 €.

Despite the EU's effort to fight against online hate speech (OHS), several reports showed an increase in OHS during 2020-21. The current pandemic provided a context for increased scapegoating and stigmatization, and minority groups are disproportionally targets of hatred discourse. OHS is a persistent threat to the Union's values and there is a need for more knowledge on its content, detection and countering, as highlighted in the current Call.

kNOwHATE (kNOwing online HATE speech: knowledge + awareness = TacklingHate) was funded by the EU's Citizens, Equality, Rights and Values (CERV) programme and coordinated by Rita Guerra (CIS-Iscte). It brought together Iscte research units, including BRU-Iscte, with INESC-ID and civil society partners such as CICDR, ILGA Portugal, SOS Racismo and Casa do Brasil de Lisboa. The project developed a comprehensive, participatory and culturally sensitive approach to analysing, detecting and countering online hate speech in Portuguese. Researchers analysed tens of thousands of social media comments and tweets and published studies on hate speech in Portuguese Twitter/X conversations. They also developed new AI models and a publicly available prototype for detecting online hate speech in Portuguese. To raise awareness, the project launched the #CortarOMalPelaRaiz campaign, which included a video campaign, a booklet and the podcast 'Cortar o Mal pela Raiz'. Its results were presented at the final conference, 'Online Hate Speech in Portugal: What Present and What Future?', held at Iscte on 9 July 2024 and streamed live on YouTube. The conference brought together experts and the research team to reflect on the current landscape and future prospects of online hate speech in Portugal. Since the project ended, its findings have continued to inform public debate through media appearances, workshops and conferences.

AgroPro

AgroPro - Agricultural Drone Technology Awareness Training for industry Professionals (2022-2024)

Programme: Erasmus+. Period: 2022-12-30 to 2024-12-29. BRU-Iscte team: Sofia Kalakou, Nelson Jorge Campos Ramalho. Funding in 2024: 25 795,00 €.

The AgroPro project aspires to provide the agriculture professionals acquaintance with the available airborne technology and software as well as with UAV international legislation & regulations. The acquaintance with mission planning and the available open source and commercial tools.

AgroPro (Agricultural Drone Technology Awareness Training for Industry Professionals) was an Erasmus+ Cooperation Partnership in vocational education and training (2022-1-EL01-KA220-VET-000088550). It ran from December 2022 to December 2024 under the coordination of the Agricultural University of Athens. The consortium brought together Innovation Hive (Greece), Future Needs (Cyprus), Casa do JOA (Portugal) and Iscte – Instituto Universitário de Lisboa. Iscte took part through BRU-Iscte, with Sofia Kalakou as local coordinator and Nelson Ramalho as researcher. The project aimed to familiarise agricultural professionals with drone technology and software, mission planning tools, and international UAV legislation and regulations. To that end, the partners developed an e-Guide mapping new career paths in agriculture enabled by drones, along with a Competence Framework, a curriculum and a competency self-assessment tool. The project's main training output is the AgroPro Drone Training Course, an online course on the use of UAVs and digital tools for sustainable and resilient agriculture. It is offered through a dedicated e-learning platform in four modules, each at foundational and advanced levels. The

course was piloted through training sessions in the partner countries. BRU-Iscte hosted the international project partners in March 2024 and the project's results were disseminated through newsletters, press releases and a mini-conference held at the Agricultural University of Athens on 20 November 2024.

XpanDH - Expanding Digital Health through a pan-European EHRxF-based Ecosystem (2023-2024)

Programme: European Commission (Coordination and Support Action). Period: 2023-01-01 to 2024-12-31. BRU-Iscte team: Henrique Martins (through Iscte CI). Iscte budget: 193 176,25 €.

XpanDH (Expanding Digital Health through a pan-European EHRxF-based Ecosystem) was a two-year Coordination and Support Action funded by Horizon Europe (grant agreement 101095594). It ran from January 2023 to December 2024. The project was coordinated by Iscte through BRU-Iscte, with Henrique Martins as global coordinator, and involved CIS-Iscte and ISTAR-Iscte. It brought together 26 digital health partners across Europe to promote the adoption of the European Electronic Health Record Exchange Format (EEHRxF), which supports the European Health Data Space. Using a 'network of networks' approach, the project engaged patients, healthcare professionals, providers, standards bodies and industry through ten stakeholder networks, the X-Nets.

Its main results include the X-Bundle Readiness model and a Digital Health Compass for applying the EEHRxF. The project also published openly available HL7 FHIR implementation guides for the patient summary, laboratory results and medication (e) prescription and (e)dispensation, along with feasibility demonstrators, scientific publications and a patient leaflet. Its outcomes were formally handed over at the European Digital Health Interoperability Days, held at Iscte in Lisbon on 16-19 December 2024. The event brought together stakeholders from across Europe to reflect on the project's achievements and discuss the future of digital health interoperability.

9. Events

9.1. Executive Summary

In 2024, BRU-Iscte researchers were involved in organising 47 scientific events, 31 international and 16 national. These include 24 academic conferences and congresses, 15 workshops, seminars and doctoral sessions, and 8 events with industry and non-academic partners. The BRU-Iscte Research Seminar Series hosted 8 seminars with guest speakers from international universities.

Conferência 'Investe São Paulo - Oportunidades de Investimento no Estado de São Paulo'	Iscte; AICEP	Nuno Miguel Pascoal Simões Crespo

10.
Dissemination, Knowledge Transfer & Outreach

10.1.
Executive Summary

Dissemination, knowledge transfer and outreach reached 204 records in 2024, led by media outreach (99), followed by expert roles in technical and scientific committees (30), dissemination to the public at large (23), dissemination to non-academic professionals (19) and executive education (15). This shows strong output beyond conventional publication channels.

10.2.

30
Knowledge Transfer - Expert

23
Dissemination to the public at large

19
Dissemination to non-academic professionals

15
Knowledge Transfer - Executive Education

9
Licensed Research

5
Involvement with NGOs

2
Knowledge Transfer - Summer School

1
Knowledge Transfer - Products

BRU-Iscte researchers were involved in 27 knowledge transfer activities, showing the unit's close engagement with public bodies, regulators, the financial sector and professional organisations. Nine licensed research projects were carried out for clients including IAPMEI – Agency for Competitiveness and Innovation, Banco de Portugal, the Institute for Employment and Vocational Training (IEFP) and Mazars/Haitong Bank.

These covered the analysis of applications and funded projects under the Portugal 2030 incentive schemes, risk assessment and youth employment. Four of them were econometric and statistical consultancy projects for Lisbon Economics, quantifying the damages caused by anti-competitive practices in the Portuguese market, including the Scania truck cartel and practices attributed to Google, Apple, Uber and a private hospitals cartel.

Our researchers also taught 15 executive education courses on topics such as finance, taxation, risk management, data analysis, place branding, decision models and public finance. These were delivered for INDEG – Iscte Executive Education, the Portuguese Institute of Statutory Auditors (OROC), the Military University Institute, the Portuguese Tax and Customs Authority, BPI's Risk Academy and Absa Bank Mozambique.

BRU-Iscte researchers further contributed to two international programmes, the Rennes Winter Session 2024 and the Iscte Lisbon Summer School 2024. In addition, the unit developed one product: a second version of an analytical solution for InformaDB that classifies companies by their environmental, social and governance (ESG) performance.

10.3.
BRU-Iscte in the Media

BRU-Iscte researchers recorded 99 media outreach activities in 2024, including opinion columns, interviews and technical articles. The most frequent outlets were Líder Magazine (23), Jornal Económico Opinião (19), RH Magazine (9), Jornal de Negócios (8), Coluna mensal 'Eco ao quadrado' in Jornal de Negócios (6). Regular contributors included J. Arménio Rego, Sofia de Sousa Vale, Pedro Fontes Falcão, Catarina Roseta Palma.

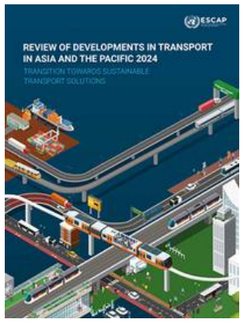

10.4.
Engaging with the public

BRU-Iscte researchers took part in 23 activities for the public at large and 5 roles with NGOs and civil-society organisations.

10.5.
Policy Impact

Regarding the policy impact of BRU-Iscte, the Overton platform lists 69 policy documents published in 2024 that were informed by the Unit's research, citing 50 different papers or books by 35 of our researchers. Of these 69 documents, 8 were published by central banks, 27 by international organisations and development banks such as the EU, OECD, World Bank, ILO, IMF and UN, 12 by national and regional governments and parliaments, and 22 by policy research institutions and think tanks. The most cited researchers were Sandro Mendonça (16), Matteo Fragetta (8), Nuno Crespo (8).

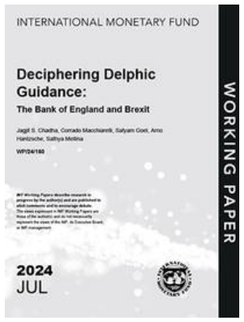

We highlight the following policy documents:

[Review of developments in transport in Asia and the Pacific 2024: transition towards sustainable transport solutions]

United Nations ESCAP, 2024-11-04

BRU-Iscte author(s): Sofia Kalakou
Research cited: Pirra, Miriam, and others 2021. A preliminary analysis on gender aspects in transport systems and mobility services: presentation of a survey design. Sustainability, vol. 13, No. 5, p. gff2676. (DOI: 10.3390/su13052676)

[Deciphering Delphic Guidance: The Bank of England and Brexit]

International Monetary Fund, 2024-07-19

BRU-Iscte author(s): João Madeira
